DELIVERY MODEL

Our delivery models are framed in a systematic manner to cater diverse needs of organizations with ease. Clients can select the most suitable delivery model that serves the exact purpose of executing IT products & solutions using trained & highly experienced resources.

1 **Offsite Delivery Model**
- Enable clients to leverage the advantage of dedicated or on-demand skilled resources.

2 **Offshore Delivery Model**
- Provide benefits to clients in need of extended team in offshore development center.

3 **Hybrid Delivery Model**
- Combination of onsite and offsite models for optimum results and performance.

4 **Offsite / Offshore Delivery Model**
- Control development process distributed between offsite center & offshore development center.

5 **Global Delivery Model**
- Real time control of the project as per comfortable time zone for complete monitoring.

6 **Onsite Delivery Model**
- Expert team working onsite for developing products or solutions at client location.
